## HALF SICK

Generally the expres- sion is, "I don't feel half well," though sometimes people say, "I feel half sick." But there is no such thing as being half sick. The man who feels half sick is all sick. As a rule, the cause of the weak, tired, half sick feel- ing is disease of the stom- ach, resulting in loss of nutrition and consequently in physical weakness.

Doctor Pierce's Golden Medical Discovery cures diseases of the stomach and other or- gans of digestion and nutrition. It restores strength by enabling the perfect digestion and as- similation of food. It makes half sick people all well.

"I suffered for four years with pain in my stomach so that at times I couldn't work," writes Mr. Frank Smith of Granite, Chaffee Co., Colo. "I wrote to you about my sickness and was told to use your medicine, which I did with good results. I only used four bottles of your 'Golden Medical Discovery,' and must say that I am entirely cured and feel like a new man, and I can highly recommend your medicine to any sufferer."

"Golden Medical Discovery" contains no alcohol and is entirely free from opium, cocaine and all other narcotics. It is strictly a temperance medicine.

Accept no substitute for "Golden Med- ical Discovery." There is nothing "just as good" for diseases of the stomach.

The "Common Sense Medical Advis- er," one thousand and eight large pages, in paper covers, is sent free on receipt of twenty-one one-cent stamps, to pay ex- pense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

## EDUCATING THE FAMILY.

Pupils at School Are Not the Only Ones Who Have to Get the Lessons.

Nowadays, when there are several children in the household, the task of aiding all of them with their lessons be- comes rather a serious problem, says Young's Companion. One overburdened mother, who was obliged to decline an invitation to pay a visit went on to give her reasons.

"No," she said, "I can't possibly leave home for a whole half day. You see, I'm obliged to spend all my time helping the children with their lessons, their teach- ers give them all so much outside work to do. It takes me from seven to ten every night to solve Harold's problems in algebra, from four to six every after- noon I have to look up the historical topics at the library for Isabel while she is struggling with her Latin, and from one until four I am either looking for pieces for little Henry to speak in the fifth grade or pressing Isabel's botanical specimens or translating Nellie's French the poor child's not very strong, you know, and I don't like to have her all up too late at night."

"Then why not come to me in the morning?" asked her friend. "This very morning, for instance."

"No," replied the busy mother, with evident reluctance. "I'd really like to, but I promised to spend this morning doing something for Robert. The poor child would be so disappointed if I failed him!"

"What are you going to do for Rob- ert?" asked the friend.

"Well," returned the devoted mother, "I'm going to the swamp back of the cemetery to catch a large green frog for him to take this afternoon to his biology class."

Mix and sift one cupful flour and quar- ter teaspoonful baking powder together. Add three-fourths of a cupful of milk or thin cream and one egg beaten very lightly; add one tablespoonful melted butter and one-third cupful English cur- rants, previously washed and dried. Fry same as griddle cakes, butter slightly and spread with currant jelly, sprinkle with powdered sugar and roll as jelly roll; sift powdered sugar over roll and serve at once. The jelly should be beaten with a silver fork before spreading on
